

**Supports Common Core State Standards**

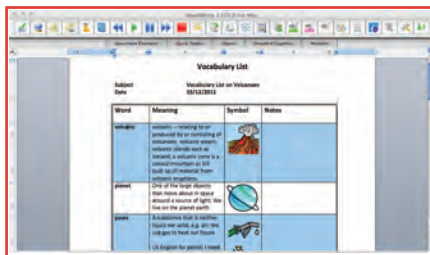

## Helping All Readers and Writers Succeed

### Read&Write GOLD:

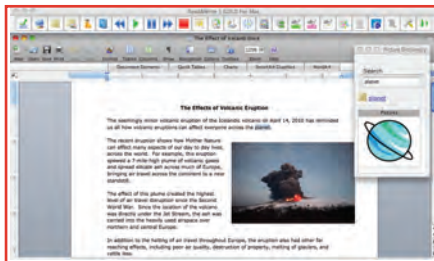

- Improves Reading Fluency and Comprehension
- Facilitates Research, Writing, and Studying, and Test Taking
- Encourages Independence and Inclusion
- Provides UDL Designed Tools that Benefit ALL Students Across all RTI Tiers
- Prepares Students for Success in College and Careers
- Integrates with Mainstream Applications

Read&Write GOLD, the award-winning literacy software solution, allows students to access any curriculum and complete reading, writing, and research assignments as well as take tests independently.

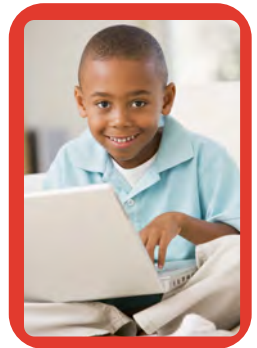

**Vocabulary List Builder** - Automatically build a vocabulary list with words, definitions, and images.

**Picture Dictionary** - Displays images for selected words.

Read&Write GOLD **helps all students** succeed regardless of ability or learning style – from the youngest learners to those in higher education or the workplace. K-12 and higher education institutions are implementing Read&Write GOLD throughout their schools, districts, and campuses, and giving all students access to it.

The discrete, customizable toolbar floats on top of commonly-used programs such as Microsoft® Word for Mac, Apple® Safari®, Apple Pages®, and Adobe® Reader. All students can **independently and confidently succeed** at their own pace. They can **access digital content** and have text read aloud with highlighting using natural sounding voices, which boosts reading comprehension and allows writers to listen to their written work.

### NEW! Texthelp Web Apps!

#### Get Read&Write features in the Cloud!

Our new Web Apps work in browsers on iPad, iPhone, iPod Touch, PCs, Macs, and more!

- Read&Write Web
- eBook Reader
- Dictionary
- Speech

Perfect for today's on the go lifestyle!

Educators can provide the **differentiated instruction** that is necessary to meet the needs of diverse student populations, including:

- Individuals with reading and writing difficulties
- Students with learning disabilities such as dyslexia
- English Language Learners (ELL)

Flexible deployment and licensing options are available – **Unlimited Site Licensing** for school *and* home use, **Concurrent User Licensing** for school *and* home use, or **Single User** on DVD or USB.

**Read&Write GOLD MOBILE** on a USB helps all students in class and at home, by providing them the literacy support they need, anytime, anywhere.

**Text to Speech**  
Reads text aloud with dual highlighting using natural sounding male and female voices. International voices are also available.

**Integration with Microsoft Word for Mac**  
Integrates with Microsoft Word for Mac with literacy support tools.

**Integration with Apple Pages**  
All of the Read&Write GOLD features that work with Word are now available for use with Apple Pages.

**Read Safari Web Content**  
Read aloud web content with dual color highlighting. The words are highlighted as the text is read to reinforce comprehension. Support tools are also available when reading the web, including the Study Skills tools.

**Dictionary**  
Provides definitions as well as alternative words to help students expand their vocabulary and improve reading comprehension. Basic and advanced dictionaries support the user's creative writing skills.

**Picture Dictionary**  
Displays images from Wdigit® Symbols for selected words. When a user comes across a word they are unsure of, they can search the picture dictionary for a visual image to better understand its meaning. Users can even double-click an image to place it in a Word or Pages document next to the associated word.

**Verb Checker**  
Helps determine correct verb conjugation of a selected verb. Once past, present, or future tense is selected, the user is provided with multiple verb conjugation options. The student can then insert their selection directly into a Word or Pages document.

**Online Translator**  
Allows single words, paragraphs, or blocks of text to be translated into multiple languages – perfect for ELL students! Works with any digital content.

**Screenshot Reader**  
Reads aloud inaccessible text including text embedded within an image or Flash, locked PDFs, or online applications! The user selects the text by surrounding the text they are interested in. The text is then captured and read aloud with highlighting. The text can be reread aloud as many times as the student wishes and can even be exported directly into a Word or Pages document.

**Screen Masking**  
Tints the screen using colors, like an overlay. This feature helps individuals who have trouble focusing on the screen by masking out parts of the screen.

**Speech Maker**  
Allows users to quickly and easily select any text and convert it into an audio file, such as MP3, using high-quality voices.

**PDF Aloud**  
Reads aloud any accessible Adobe Acrobat PDF file with dual highlighting.

**DAISY Reader**  
Reads DAISY books aloud.

**Scanning**  
Scan single and multi-page print documents to be read aloud.

**Phonetic Spell Checker**  
Analyzes and corrects students' spelling and returns suggestions for common spelling errors. Phonetic spelling and mirror letters are also identified. Definitions for suggested word choices are displayed.

**Word Prediction**  
Helps develop writing skills by providing the tools to construct sentences with ease. Learns the writer's style and predicts the word they are typing and the word they want to use next. Words can also be added to the Prediction dictionary.

**Sounds Like and Confusable Words Checker**  
Identifies words that sound the same (homophones) but are spelled differently and have different meanings (e.g., "eye" and "I") or words that are commonly confused (e.g., "through" and "thorough"). Alternate choices are displayed, as well as their definitions.

**Fact Finder**  
Helps users research information quickly by searching the web for relevant information about a topic.

**Online Fact Mapper**  
Allows students to produce a visual representation of facts and ideas on screen. This is useful when brainstorming, drafting, and revising work. Users can also add images and notes to help remember key facts. This is particularly helpful to visual learners.

**Study Skills Tools**  
Users can highlight and extract text from any document or web page to create study guides and outlines. The user can collect highlights and export them to a Word or Pages document. These tools facilitate active reading, writing, and learning.

**Vocabulary List Builder**  
Build vocabulary lists by highlighting words in a document or web page or by entering words manually. A Word or Pages document will automatically be created with the vocabulary words, dictionary definitions, and images from Wdigit Symbols.

**Talking Calculator**  
Gives access to the Apple calculator.

**Text Transfer**  
Automatically transfer text from any Mac application to Read&Write GOLD for Mac. Students can hear the text read aloud with dual color highlighting or edit the text. Text can then be returned to the original document with a click of a button.

**Product Feature Video Tours**  
Video walkthroughs of all features are available from the toolbar.

## System Requirements

- Intel Core 2 Duo
- 1.83 GHz processor
- Mac OS 10.5 or above
- 512 MB RAM (1 GB preferred)
- 1.5 GB of free disk space
- Speakers, Sound Card, DVD Player (for installation purposes only)
- Internet connection for certain features
- PDF Aloud requires Adobe Reader or Acrobat Version 9 or above
