

Read&Write GOLD MOBILE for Windows or Mac

Read&Write GOLD MOBILE is an exciting portable software product available for Windows or Mac that provides users with all of the features of Read&Write GOLD, the award-winning literacy software solution for individuals struggling with reading and writing, with the added benefit of being able to use it anytime, anywhere.

Read&Write GOLD is a customizable easy-to-use toolbar that seamlessly integrates with widely available, familiar applications including Microsoft Word, Internet Explorer, Safari, and Adobe Reader, allowing users to access the reading and writing support tools they need from within mainstream programs.

Read&Write GOLD MOBILE comes on a USB flash drive and contains all of the files required to run Read&Write GOLD. Users simply plug the key ring-sized device into the USB port of the computer and they're ready to go.

Read&Write GOLD MOBILE provides students and teachers with complete portability so they have access to Read&Write GOLD anywhere they need it.

Benefits of Read&Write GOLD MOBILE:

- No IT staff required!
- All of the features of Read&Write GOLD, including reading, writing, research, and studying tools, are available to students when and where they need them.
- Students can complete homework and research assignments or use Read&Write GOLD for pleasure reading, sending email, or simply searching the web using the same tools they use at school.
- Teachers can prepare assignments and files for students any time or place that is convenient for them – before, during, or after school.
- Students and teachers can work on any computer – school, home, work, library, resource room, or after-school program.
- User preferences are stored on the device so users can work comfortably using their own settings on any computer as if it were their own.

“One of my students, a Texthelp user, was telling me that his laptop had to be returned to the company for repairs and he was so upset as his laptop was “his life”. After expressing how much he missed it, he then reached into his shirt and extracted his Read&Write GOLD MOBILE and said, “but this...I sleep with this!”

You could tell how much having the option to use any computer to access the software meant to him!”
